SUMMARY

CSE (AI) undergraduate (CGPA 8.1/10, expected May 2028) focused on backend systems, machine learning, algorithms, and performance engineering.

EXPERIENCE / PROJECTS

LLM Gateway Engine (Python, FastAPI, AsyncIO, SSE) - unified async gateway across 3+ LLM providers with failover + circuit-breaking; -25% latency.
Digit Inference Engine (NumPy, PyTorch, ONNX) - NN from scratch to CNN, ~97% accuracy, 8-bit quant (~900KB to ~225KB), in-browser inference.
Square Dash (C#, Unity, Android) - endless runner, cloud leaderboards, object pooling (100+ entities/frame), stable 60 FPS on budget devices.
Client-Side Web Tool Suite (JS, Canvas) - local-first 4K image tools; 40% faster build cycle. Live at all.html-5.me.

SKILLS

C, C++, Python, C#, SQL, JS | PyTorch, TF, NumPy, Pandas, ONNX
FastAPI, REST, AsyncIO, SSE | Git, Docker, GH Actions | GCP, Unity Cloud

ACHIEVEMENTS

800+ DSA problems | CodeChef 1624 | Codeforces 1324
CP Executive, Codame (IIIT Bhopal): OPTIGO inter-IIIT contest, 5000+ participants, 15+ authored problems, mentored 50+ juniors.

EDUCATION

B.Tech CSE (AI), IIIT Bhopal - CGPA 8.1/10 - Expected May 2028
Coursework: DSA, OOP, DBMS, OS, Computer Networks.
